

Job Title: Legionella Plumbing Specialist

Location: West Midlands (within 15 miles of WV10 9RT)

Employment Type: Full-time | Permanent

Availability: Immediate Start Available

Note: Currently trialing a 4-day working week

Join Nant – Protecting Water. Empowering People.

At Nant Ltd, our mission is to protect people and their water systems, ensuring safety, compliance, and peace of mind. We visited over 3,800 sites last year, and we're looking for passionate professionals to help us go even further. We are proudly driven by our core values — Care, Commitment, Consistency, Creativity, and Collaboration — which shape how we work with our clients, communities, our partners and each other.

What You'll Be Doing

As a Legionella Plumbing Specialist, you will support our clients with a wide range of plumbing services and remedial works in accordance with ACoP L8 and HSG 274 Part 2. You will carry out Legionella Plumbing and TMV Planned and Remedial tasks appropriate to your competency, training, and experience.

Typical duties may include:

- Monitoring and maintenance of water systems in accordance with ACoP L8 and HSG 274 Part 2
- General Legionella and Water Hygiene Duties
- TMV Service - Level 1 and Level 2
- Thermotap and Exposed/Concealed Shower Service
- Expansion Vessel and HWSV Purge (standard and remedial)
- Tap and Injection Point Installation
- TMV Remedial Installation/Replacement
- Unvented Cylinder Service and Installation
- Repair/Replacement of Ball Valves, Keraflow Valves, PRVs
- Dead end removal and deadleg/bib tap removal
- CWSC removal, conversion, replacement, and refurbishment
- Site water isolation and shutdown/reinstatement
- Installation and commissioning of concealed/exposed showers
- Expansion Vessel Installation
- Pressure and Temperature Relief Valve Replacements
- Secondary pump installation
- RPZ Installation and Servicing
- Installation of single and multiple point water heaters
- Use of company tablet for recording all works on our internal software system

A Career With Purpose & Progression

- Mission-led work: protecting health through water safety
- Clear Training and Development Pathway:
 - City and Guilds Plumbing Level 1 (if applicable)
 - Servicing and Testing requirements of TMV WH018
 - Installation and Servicing of Domestic Vented and Unvented Hot Water Storage Systems
 - Water Regulations
 - City and Guilds - WH002 Legionella Awareness
 - City and Guilds Plumbing Level 2
 - Domestic Electrical Installer 'Part P'
 - Opportunities to progress into specialist areas and internal advancement through our career framework
- Training Matrix tied directly to pay progression
- Coaching & Mentoring Pathway: grow into a mentor or coach
- Regular internal and external training opportunities

Supportive Culture Based on Our Values

- We live our 5Cs: Care, Commitment, Consistency, Creativity & Collaboration
- Vibrant internal social calendar and CSR activity

Employee Benefits

- Currently trialing a 4-day working week for Plumbing Specialist Team members
- Performance review system
- Company pension: 4–6% depending on service
- Fully funded Paycare health cover (following a successful probation)
- EAP wellbeing support system (following a successful probation)
- Time-off benefits: enhanced paternity, dependants, bereavement, antenatal & medical leave
- Annual leave starts at 20 days plus bank holidays
- Increases with length of service up to 25 days plus bank holidays

Who We're Looking For

You'll need to be proactive, reliable, and safety-focused.

You'll be happy travelling nationwide and staying away from home 2–3 nights per week.

Essential

- Right to work in the UK
- Full clean driving licence
- Comfortable with travel and overnight stays
- DBS clearance will be carried out to ensure our employees are appropriate for working in care and safeguarding-sensitive environments
